Allerpause® - Natural Histamine Blocker with additional powerful immune support

EZClear® is a proprietary blend of bioactive quail egg proteins designed for use as a functional ingredient in natural health formulations. Backed by peer-reviewed clinical evidence, EZClear® delivers fast-acting, natural relief from allergic rhinitis symptoms.

Fast, Natural Relief for Allergy Symptoms.

Key Highlights

Clinically Proven Results

In a published human study, participants experienced noticeable relief within 15 minutes of taking Allerpause®. It works fast—without causing drowsiness or other side effects.

How it Works

Special proteins in quail eggs naturally block the enzymes that trigger allergic reactions, helping calm nasal irritation and inflammation before symptoms take over.

Perfect For

Anyone who wants quick, natural relief from occasional allergy flare-ups—at home, work, or on the go.

Formulated to Boost Immunity

This proprietary blend in Allerpause actively supports the immune system with Vitamin C and a unique selection of complimentary ingredients. Its also works to break down existing histamine in the blood, offering a faster route to system relief.
