

Ingredient

EZClear® - Quail Egg Powder

EZClear® is a proprietary blend of bioactive quail egg proteins designed for use as a functional ingredient in natural health formulations. Backed by peer-reviewed clinical evidence, EZClear® delivers fast-acting, natural relief from allergic rhinitis symptoms.

Fast, Natural Relief for Allergy Symptoms.

Key Highlights

Clinical Validation

A randomized, double-blind, placebo-controlled study (Food Science & Nutrition, 2014) confirmed that a single dose of EZClear® significantly improved nasal airflow and reduced allergy-related symptoms within 15 minutes of exposure to standardized allergens.

Key Data Points

- 43 subjects, aged 18–60
- Statistically significant improvement in PNIF (P=0.01)
- 27–32% better nasal airflow vs placebo
- Significant reductions in nasal obstruction, rhinorrhea, and itchy eyes (P<0.01)
- No adverse effects or drowsiness

Formulation Advantages

- Fast onset (15 minutes)
- Natural and non-drowsy
- Clinically supported human study
- Compatible with capsules, chewables, or powder blends
- Safe and stable ingredient profile.

Shelf Life

- 36 Months

Country of Origin

Belgium
