Ingredient

OSELAN® is a seawater concentrate obtained through a unique production process, giving it both a high content of valuable sea minerals and a lower concentration of sodium chloride (NaCl). This unique powder is derived from a renewable marine resource.

OSELAN® is rich in silicon, bromide, boron and magnesium, with concentration factors above 80, and contains at least **22 minerals and trace elements**.

Magnesium from **OSELAN®** demonstrates high solubilization rates throughout the digestive tract, supporting **excellent bioavailability**.

Key Highlights

NPN #8012755 Health Claims

- Helps to maintain (proper) muscle function
- Helps in energy metabolism

Clinical Dosage

1g once daily

Shelf Life

30 months

Standardization

11.0% Magnesium, 8.0% Sodium,
3.2% Potassium, 0.0437% Boron,
0.0028% Silicon

Quality Control

- Halal
- Vegan
- Kosher
- FSSC 22000
- Non-GMO (NGPV in process)
- ISO50001

Applications/Delivery Format

- Powder
- Sachet
- Capsule
- Stick Pack
- Gummy
- Tablet

Product Composition

100% Ocean Minerals - 100% Water Soluble

Country of Origin

France

Sustainability

Harvested in a sustainable manner

Founding Scientist
