Vegan Vitamin D3 Spray/Dropper 1,000IU

Sourced from natural lichen from the wild, Vitashine® our plant-based Vitamin D3 delivers a highly bioavailable form of cholecalciferol to support optimal immune function and overall wellness. Vitamin D3 plays a critical role in regulating the body’s first line of defense by supporting innate immune response, cellular signaling, and healthy inflammatory balance. Especially important for children, older adults, and individuals with limited sun exposure, this essential nutrient helps maintain strong immune resilience, bone health, and overall physiological function year-round.

Key Highlights

How Vitamin D3 Supports you

- Made with Vitashine®, a trusted, plant-based Vitamin D3 sourced from lichen, this formula delivers a clean, sustainable, and highly bioavailable form of cholecalciferol. Produced through a proprietary process that ensures purity and potency, Vitashine® provides reliable immune and bone support without animal-derived ingredients — making it ideal for vegan and vegetarian lifestyles.
- Vitashine® is the most natural, tested and proven Vegan Vitamin D3 in the world, for the last 15 years.
- Versatile delivery application that can be sprayed or dropper applied directly into the mouth, onto a favorite food, or into a drink.
- Vitashine® is Non-GMO Project Verified and Certified by the UK Vegan Society, the most respected Vegan Organization in the world.
- Dose Level capability is quite differentiated, which may be 400IU, 1,000IU, 5,000IU or other desired levels.
